

1 DELEGATE DELLA: Mr. Chairman and members of
2 this convention, there were several items that we
3 considered in the committee, and one was the business man,
4 the business world, who wants time to make a survey
5 of what happened to them during their legislative session of
6 90 days, or 70 days.

7 The other item that you are not taking into con-
8 sideration, and I think you might have to have two lieutenant
9 governors, because if you are going to continue on with
10 a legislative session for the entire year, you might kill
11 two of your executive departmetnts. I knew that one Governor
12 took a sight of relief when that 90 days was up, when the
13 Legislature went home because he did not know what the
14 program was that was going to be sponsored by those members
15 in the General Assembly, and we have one delegate here, I
16 think, who will vouch for what I have said, that he was
17 relieved when the General Assembly adjourned sine die.

18 You have got to give to the General Assembly
19 the right to have progressive procedure in their methods
20 of legislating, and we have testimony that there will be
21 joint committees after the adjournment sine die who are
